Commons

Various large scale tree work and routine maintenance
2013 – present

“Since August 2013, we have used the services provided by Red Squirrel Tree Surgery on a number of occasions to carry out tree safety operations on Wimbledon & Putney Commons. I have been very impressed with the service that has been provided by this organisation and would not hesitate to use them in the future.”

Peter Haldane, Wildlife & Conservation Officer

P. Haldane

Red Squirrel Tree Surgery were commissioned by Wimbledon & Putney Common’s rangers to carry out work on a large London Plane tree overhanging Lower Richmond Road, Putney. Due to its size and location, and after having completed a risk assessment, it was decided that a full crown reduction was the best option for this tree. Red Squirrel managed pedestrian and road traffic professionally and completed the job to a very high standard.
